

The heart of our ministry is Urban Church Planting!

There are many components that go in to a church plant; evangelism, pastoral training, leadership training, discipleship, etc. As God assembles all these facets of the ministry and then blesses a new launch of a congregation, my heart is full of joy!

Through your help and partnership with Global Surge, we have launched our 31st congregation! Pastor Rogelio Aguirre immersed in our work in Metro Manila, then returned to the Bacolod area! After incubating the congregation

for nine months, Aguirre reached hundreds of new people with the Gospel! During that time, Aguirre reached people, began discipleship, and began 27 small groups throughout the community.

Recently, Aguirre launched the new congregation. God also used the Cheney Baptist Church to partner with the new church! 166 people were saved during the launch. The church is settling around 150 per week. God is so good! We will soon launch a Baptist Bible College Asia campus in this area to help stimulate training and development!
